

CENTRIFUGAL FANS SERIES FKKI-1400

- Fan casings and impeller are from stainless sheet steel.
- Impellers are semi-backward curved "spoon type" that allows the easy cleaning and maintenance.
- Motors could be 230V/50Hz or 400V/50Hz.
- Motor speed 1400RPM or 900RPM.
- IP:55 protection- Class F insulation.

APPLICATIONS: For special ventilation requirements where the extraction of a corrosive atmosphere is required.

ELECTRICAL ACCESSORIES: Speed controllable in 230V with REB-5000W and in 400V with INVERTER.

UPON REQUEST: The fan can be placed inside an acoustic box.
Motor flame proof, single or three phase.
