

Extremely silent air purifier for rooms up to 25 m².

Guarantees to renew the air in a room at least three times per hour.

Features

It treats the air in four stages.

1. The pre-filter retains the largest particles.
2. The class F HEPA filter (EN779: 2012) retains particles up to 0.1 microns, such as pollen, with 98.5% efficiency.
3. The carbon filter eliminates fumes and odours.
4. The ioniser provides the ideal balance of positive and negative ions in the air, giving the room a fresh and relaxing feel.

Programmable timer of 2, 4 and 8 hours.
Class II.

Touch control panel with speed indicators, filter saturation, ionizer and timer 2-4-8h.

Active carbon filter. HEPA filter. Fiber filter. Filters are also available as accessories.

Airpur-N can be hung on the wall.
