

# DHUM-Plus Series

The DHUM-Plus series are a range of light-weight portable domestic dehumidifiers. The DHUM-Plus series are available in 3 model sizes dependant upon the dehumidification capacity required: 10, 12 and 16 litres.

**Features:**

- Adjustable humidistat that enables you to select the required degree of humidification.
- Removable water tank and integrated carry handle.
- Water level indicator that lights up when the tank is full along with automatically disconnecting the dehumidifier.
- Continuous water drain.
- Automatic defrost feature when the ambient temperature is below 15°C.

DHUM-Plus
